Dear Catharine Chapman,

We are delighted to advise that due to your loyal support as an AquAid customer, a well has been built in Africa on your behalf.

The Elephant Pump, based on a 2000 year-old Chinese design, adapted for use by Ian Thorpe, CEO of The Africa Trust, proudly bears your school's / company's name and will supply sufficient clean drinking water for a rural community in Africa for many years to come. This water will not only keep the people hydrated, but will also allow for other sustainable projects to stem from the well and its water supply, like planting a banana crop, which can be watered from the well, which can allow for the bananas to be sold, this in turn, can pay for school fees for the children of the community.

We would like to take this opportunity to express our most sincere thanks to you for your support in this sustainable and worthwhile charity and the people of the community thank you too.

With our very kind regards

A handwritten signature in black ink, appearing to read 'Robert Owen', is written over a light blue horizontal line.
