

Manicaland Province

Dear Friend

I write this letter this later thanking u for the Elephant pump that you installed in our village

I would very want to thank the Africa Trust for our village. I am a boy aged 15 and my name is Phint Nyandoro. We would like to thank them because there are a lot of benefits that we get from the Elephant pump for example the pump is very easy to use and to handle, the pumps are also near our home and we don't walk over 30m, the water is not even contaminated & it's as clear as milk.

The Elephant pump does not have any problems because it's very easy to use & has no problems compared to a tap or borehole. I very thank the Africa Trust from the bottom of my heart because if it was not for you we would be walking 2km just to get clean water. Thank you very much.

I wish you best wishes from God & hope u never stop helping the people because if it was not for you we would be getting & drinking dirty water.

God bless u all.

Yours Sincerely

Phint Nyandoro
